

Are you ready to explore the exciting world of science and strategy? Join our Science Club and dive into eight thrilling activity blocks!

Block 1 & 2 – Chess & Competition

Sharpen your mind with chess and prepare to compete in the National Tournament!

Block 3 – Speed & Physics

Measure the speed of Hot Wheels cars and go-karts using real physics!

Block 4 – Hands-on Experiments

Get your hands dirty with fun and exciting experiments!

Block 5 – Combustion Madness!

Create elephant toothpaste, launch rockets, and explore the explosive world of combustion!

Block 6 – Kite Building & Competition

Design, build, and fly your own kites—then compete to see whose flies the highest!

Block 7 & 8 – More Experiments!

Continue working on exciting science experiments and take your discoveries to the next level!

blocks!
